Our summer/fall edition of The Community Bridge celebrates staff and student achievements since our last issue and looks ahead to the 2023-24 school year. You will see why we should all be so proud of our two outstanding high schools.

Inside you will also learn that numerous summer infrastructure projects are underway in an ongoing effort to take care of our buildings. These upgrades include new roofs at HPHS and HVAC, fire alarm and sprinkler upgrades at both schools. The infrastructure work in the DHS auditorium remains on schedule for completion in November. That work includes needed repairs and improvements to acoustics that will allow patrons to better hear performances. When finished, we hope to welcome you in person to see those extensive renovations at one of the many fantastic performances in that space.

In the coming year, you will notice the continued emphasis on security. The safety of our students and staff is our first priority. In today’s world, that means protecting students and staff from gun violence in schools and that requires constant review and evaluation of new tools, practices and protocols to support that priority. To the extent that we can disclose that information, you can expect to see more details of enhancements in the future via this newsletter or through additional communications that you can subscribe to on our website dist113.org.

Thank you for your continued support. We are excited to welcome the Class of 2027, new staff and our returning students and staff back to school.

Respectfully,

Dr. Bruce Law, Ed.D.
District 113 Superintendent of Schools

Boilers at DHS

Improvements to the School’s HVAC infrastructure include replacing two of the original boilers installed when Deerfield High School was built in 1954. A third boiler, which was installed in 2010, is also being replaced. All three units are past their useful lifespan. They will be replaced by smaller and more energy-efficient units that are more cost effective to run and less costly to repair.

Roofing at DHS

The newly installed roofing, called EPDM, is made from an extremely durable and long-lasting synthetic rubber. This roofing is particularly effective in low-slope applications, like the flat roofs of our high school buildings. Regarding Roof Work in Highland Park

Projects in Highland Park to improve and expand the space. Framing has been completed for new vestibules that will provide better acoustics by incorporating more sound reflecting materials. New acoustical ceilings will be installed in the theater. The height of the overhead door to accommodate large theater props will be increased.

The roof at the Auditorium at Deerfield High School was replaced with a new EPDM roofing system. This project is on schedule and is expected to be completed in November.

Northern Illinois Regional Art Exhibition

The gallery features new work by all students as well as scholarship recipients, Talented young artists with opportunities to showcase their artwork and compete at the State level.

Scholars by College Bound Opportunities

Congratulations to the seniors who have been selected as Scholars by College Bound Opportunities (CBO). This program is designed to guide, support and motivate under-served students to attend and graduate from college.

This year’s CBO Scholars are:

- Samantha Gomez
- Amelie Glassberg
- Will Davis
- Jovely Hernandez
- Sami Glass
- Jovely Hernandez
- Joven Utz
- Kyle Powers
- Jared Brown
- Kenneth Warren
- Landon Utz
- Maxwell Hyman
- Ben Howard
- Ryan Meyerhoff
- Joseph Stolte
- Jordan Simon

Scholars in Conjunction with the Schuler Scholar Program

The Schuler Scholar Program, which helps high-achieving and underrepresented students gain access to and succeed at highly selective universities, is proud to announce...
This year’s CBO Scholars are: Ten seniors were recognized as Scholars by College Bound Opportunities scholarships to those who qualify as Semifinalists and Finalists. All 10 District 113 students who qualified as National Merit Semifinalists earlier this year have been selected as Finalists. National Merit Scholarship Finalists talented young artists with opportunities to showcase their artwork and compete at the State level. Auditorium Renovation at DHS This renovation to the Auditorium of DHS begins in earnest when students left for summer break in early June. The renovations include demolishing the existing ceiling and installing a new ceiling, replacing the catwalk, reinforcing steel and the stage area for new rigging, installing new seating and stage flooring, new lighting and AV upgrades, as well as a double height overhead door to accommodate larger theater programs. Thus far, the concrete slab has been poured to provide an ADA-accessible entrance and ADA-compliant ramps throughout the space. Framing has been completed for new vestibules that will provide better acoustics by incorporating more sound attenuation for the Auditorium. Demolition of the existing ceiling will start in the next few weeks. The renovation to the Auditorium at DHS began in earnest when students left for summer break in early June. The
