The Warriors started 2023 with a bang! After a long, hard summer of high mileage, Deerfield put their fitness on display at the Deerfield Opener. The Warriors defeated Mather, Warren, and Zion-Benton on both the varsity and frosh/soph levels, and it wasn't close.

Zion-Benton took an early lead but got reeled in by Deerfield's pack before the one-mile mark. At that point, the front of the race included a lot of Deerfield red plus Mather's Mohammed Abdullahi. Then **Eric Hogenkamp** made a move and broke it open. The Deerfield pack split apart, and Hogenkamp, **Dylan Cohen**, and Abdullahi were running in a pack of three at the front. **Dane Brown**, **Jon Wool**, and **Jamie Chandler** were strung out just behind. Cohen ultimately took over the lead until the last mile where Abdullahi pulled ahead for good. Cohen finished in second in 15:29 and Hogenkamp third in 15:40. Along with the 2-3 finish from Cohen and Hogenkamp, Deerfield took the next four places with

Brown in fourth in 15:52, then Wool in fifth in 15:56, Chandler in sixth in 16:14, and **Nick Dowell** had a nice race sitting and kicking on Mather's second runner to finish seventh in 16:17. Deerfield had two more top ten finishers as **Matt Solovy** and **Andrew Firestone** outkicked Mather's third runner for ninth and tenth, both in 16:25. **Danny Kriegel** and **Ben Freedman** finished twelfth and thirteenth in 16:48 and 16:53 putting ten Warriors in the top thirteen for total Deerfield domination.

The frosh/soph race was even more dominating. The Warrior's youngsters took the top eleven spots! **Scott Harvey** led from wire to wire, finishing the two-mile race in 10:46 and without any other runner in sight. Will Lambert, who has been hitting his stride in a major way recently, was second for the Warriors in 11:23. For most of the race, Lambert was packed up with eventual third and fourth placers **Sam Chaban** and **Hugo Albrecht-Buehler**. Then **Charlie Marks**, **Noelan**

Tossing, **Jon Weissmueller**, **Andrew Calderon**, and **Logan Luo** all finished within ten seconds of each other for fifth through ninth. **Jay Noren** and **Alex McManamna** finished tenth and eleventh before the first runner from any other team. Also exciting was **Aurin Dasgupta's** 13:05 finish for 15th place, a 54-second PR, and the result of an amazing summer of training

Besides the dominating win, this meet saw 14 Deerfield runners cross their first high school finish line. A runner's first race can be daunting given the intense atmosphere and the pressure of competitive high school cross country, so finishing your first race is a special moment. With their first races under their belts, now the work begins to make the next races even better.
